As soon as I became completely disgruntled

I have ~~never~~ mentioned the fact

I do so in order to state that

When I first went to Russia in the winter of 1959 my funds were very limited, so after a certain time, after the Russians had secured themselves that I was really the naive American who believed in communism, they arranged for me to receive a certain amount of money every month as it was testimony through the deb-crow as financial help to <sup>some</sup> as political immigrants but it was arranged by the M.V.D.. I told myself it was simply because I was broke and everybody knew it. I accepted the money because I was hungry and there was neutral inches of snow on the ground in Moscow at that time but what it really was was payment for my denunciation of the U.S. in Moscow in <sup>November 1959</sup> and a clear promise that for as long as I lived in the U.S.S.R. life would be very good. I didn't realize all this, of course for about two years.

There have already been a few organizations who have declared that they shall become effective only after conflict between the two world systems leaves the world country without defense or foundation of government, organizations such as the minute men for instance however, they intend are preparing to simply defend the present system and reactivate its influence after the mutual defeat of both systems mutually which is more or less taken for granted.

These racial groups will represent the remaining hard core of fanatical American capitalist supporters.

There will undoubtedly be single representatives of this kind by communist groups in communist countries.

There will also be many divided religious segments of differing factions.

In the communist experiment several  
functions and inevitable developments have  
emerged which many and angles could not  
possibly have foreseen. This course  
with increasing clarity two main types  
mistakes which many make, not the  
mistake with seeing the key-stone of  
Marx's economic theory, the doctrine of surplus  
value which has always been a  
well-known and controversial.

The first mistake is fairly well known  
even at this stage in the communist development  
the 'withering away of the state' that is  
understood however many emphasize  
that the abolition of classes which lead  
to the gradual reduction of state apparatus.

Is that the old system of capitalism  
even within itself is missing and  
what is most serious, forming a new  
economic coalition much to the common

Key development

and it is this ~~the~~ prominent factor  
of the capitalist system which will  
unavoidably eventually lead to the common  
destruction of all the imperialistic powers  
~~there are already many factors~~  
country have become dependent upon  
other countries than domination of  
colonized foreign colonies through  
force, they have been devastated by their  
former colonies by the great imperialist  
powers countries or in some cases sold  
given up their colonies themselves as  
unprofitable and other cases the oppressed  
peoples rose up and physically struggled  
colonial against and this process is continuing  
even today as we all can see.

but what is important to remember

... instances  
 compared to the  
 to displays as many  
 obvious it is  
 ... way, rather it is the much  
 more subtle aspects of industrialization  
 and mechanization which bring the  
 greatest rockships upon the people  
 a general decay of classes into shapeless  
 socialists without real cultural functions  
 regeneration; not so much of people  
 since industrialization actually provides  
 for more free movement of classes  
 around each other, but rather of idols,  
 although these segmental idols have  
 more freedom of expression throughout  
 all the classes.

... century in various  
 industrial revolution  
 ... enterprises struggled  
 ... offered a new,  
 ... and promising future while  
 still observing the ~~past~~ <sup>past</sup> ~~industrial~~  
 democratic ideal of its overthrown  
 predecessors, <sup>the</sup> ~~enterprise~~ rural small  
 enterprises.

and at about the same time in  
 Russia the working was  
 overthrown by the peasants and workers  
 and the road laid open for the giving  
 of power by the bolshewiks because that  
 too, offered a bright new future without  
 violating historical traditions of Russian  
 working class life.

Therefore in history there are many  
 such examples of the realisation of  
 the new order <sup>in</sup> the industrial  
 traditions of the old.

So the Industrial Revolution <sup>has</sup> ~~has~~  
 the present advances and yet it has  
 developed as a <sup>sublimated</sup> ~~sublimated~~ <sup>post</sup> ~~post~~ of its <sup>own</sup> ~~own~~  
 its own shortcomings.

Two persons knowing both systems and  
 in his particular activities, there can be  
 no reduction between the systems  
 unless as they exist today and the  
 person.

It must be opposed to their four  
 foundations and representative  
 and yet it is contrary to still the  
 sort of attitude which says "a card on  
 both your houses."

There are two great representatives of  
 power in the world, simply opposed,  
 the left and right, and this system  
 and concept.

any practical attempt at an attempt  
 must that as its nucleus the traditional  
 list of both systems and yet be entirely  
 opposed to both systems.

For not system can be entirely  
 new, that is where most important  
 go activity industrial or political, go  
 strong, could yet the new system must  
 be opposed unopposed to the old that  
 also as where conditions go better.

I have heard and read of the rampant  
americanism in the U.S. not the ultra  
right type, but rather the polite, seemingly  
pointless americanism expressed by people  
as the "american fore group" <sup>and the</sup> of the  
foundation.

and yet even in these violent, lawless,  
patriotic gestures, there is the obvious  
"safe being ground" by the ~~the~~ <sup>the</sup> ~~the~~ <sup>the</sup>  
invited interests of the sponsors of  
these expensive undertakings.

To where can the right turn? to  
factional mutants of both systems,  
to old-hat <sup>Western</sup> ~~filibustered~~ <sup>filibustered</sup> ~~ideals~~ <sup>ideals</sup>  
out of touch with reality, to  
religious groups. To revolutionists to  
absurd anarchists, etc.

I am quite sure that people must  
hate not only the government but  
~~the~~ <sup>the</sup> culture, traditions, heritage  
and very people itself, and yet they  
stand up and proudly pronounce themselves  
patriots, displaying their war medals, and  
they joined in conflicts long past  
between themselves.

I wonder what would happen if somebody  
was to stand up and say he was utterly  
opposed not only to the government, but to the  
people, to the entire land and complete  
foundations of his society.
